Convex Design

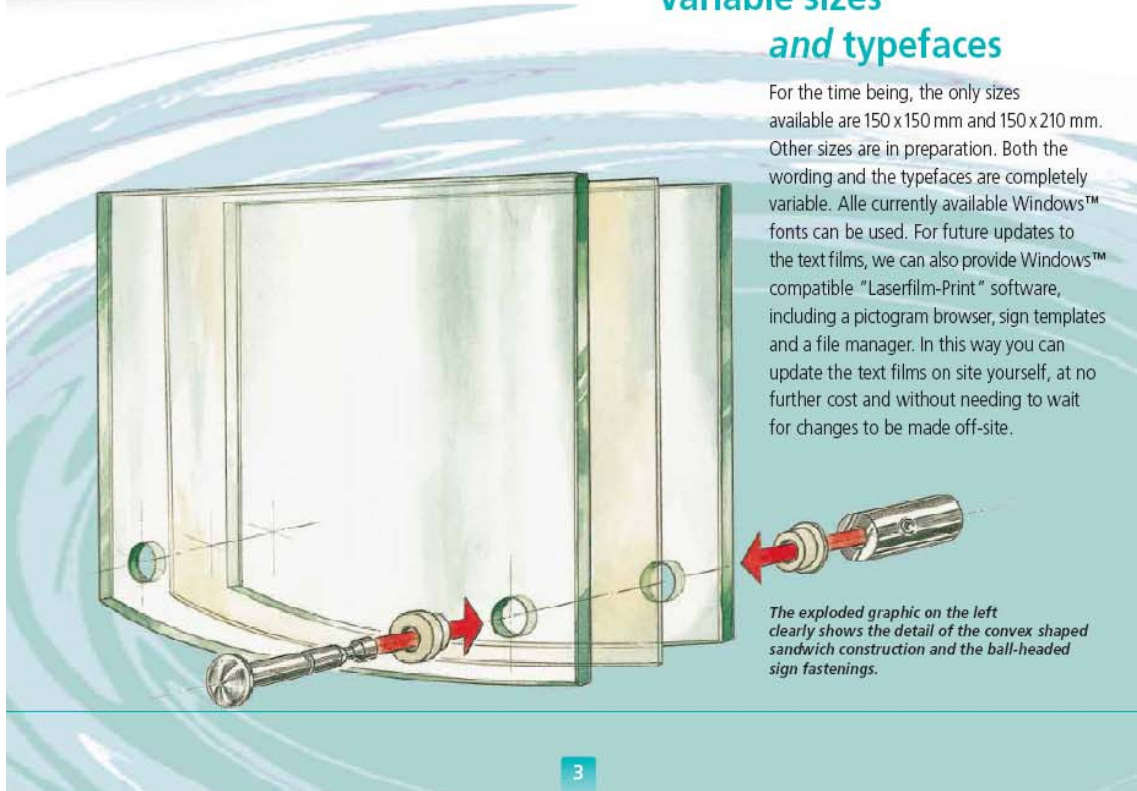

Extravagant convex-shaped double glass sheets

The fine, exclusive character of these signs is achieved by combining real Floatglass with mounted or diamond-polished double-sided edges, and turned stainless steel sign fastenings.

These designer glass signs are constructed to a sandwich construction principle (see the illustration below). The convex glass sheets are made to fit each exactly. The perforated films with stamped holes for the sign fastenings are also available in glass-clear, matt or white finish.

Variable sizes and typefaces

For the time being, the only sizes available are 150 x 150 mm and 150 x 210 mm. Other sizes are in preparation. Both the wording and the typefaces are completely variable. All currently available Windows™ fonts can be used. For future updates to the text films, we can also provide Windows™ compatible "Laserfilm-Print" software, including a pictogram browser, sign templates and a file manager. In this way you can update the text films on site yourself, at no further cost and without needing to wait for changes to be made off-site.

The exploded graphic on the left clearly shows the detail of the convex shaped sandwich construction and the ball-headed sign fastenings.

**Alt i beklædning, fodtøj, rengøringsartikler og sikkerhedsudstyr,
samt reklamegaver og strøartikler med tryk, broderi og gravering, efter opgave.
Skilte, bannere og bilreklamer efter tilbud.**

Model No. 620.303

Model No. 620.700

Model No. 620.500

Other types of signs

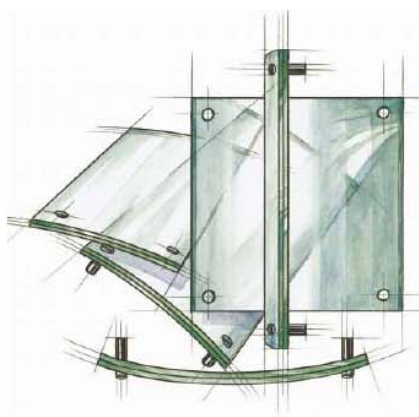

In addition to both of the above door signs, other sizes and types of sign can be produced in convex format. The illustrated examples demonstrate that the convex format can also be used for direction signs, signs for individual storeys and signs for multi-storey blocks. Again, only a few standard sizes are available for the time being, but further sizes are in preparation.

Model No. 620.600

Available standard sizes Convex formed

Model	No.	Size mm W H	Glass Thickness (in mm)	No of Sign fastenings/ Positioning	Sign fastening diameter (mm)
Door sign	620.303	150x150	2x4	4	13
